PROVIDER ALERT Mandated Reportable Diseases and Conditions: 2019 Revisions September 10, 2019

The California Department of Public Health, in consultation with the California Conference of Local Health Officers, recently updated the reportable disease lists in the California Code of Regulations Title 17, Sections 2500 and 2505. These changes are effective October 1, 2019. The Santa Barbara County Public Health Department is taking this opportunity to ensure your receipt of this information and to remind our partners that timely disease reporting is one of the most important public health contributions that our community partners can provide to ensure public health and safety in Santa Barbara County. As per Title 17, reporting of listed communicable diseases is required for both confirmed and suspected cases via the CalREDIE Provider Portal. Below is a summary of key reporting changes. To view the complete list of Reportable Diseases and Conditions and reporting timeframes, please visit our website at www.sbcphd.org/dcp

Removed-No longer required to be reported to the local health department:

- Amebiasis
- Chlamydia trachomatis infections, including lymphogranuloma venereum (LGV)
- Streptococcal Infections

Added-Now required to be reported to the local health department:

- Human Immunodeficiency Virus (HIV) infection, any stage; report within 7 calendar days
- Middle East Respiratory Syndrome (MERS); report immediately by telephone
- Paratyphoid Fever; report within one working day
- Cannabis Related Illness (Locally Reportable); report within one working day
- Vaping Pulmonary-Associated Injuries (Locally Reportable); report within one working day

The following conditions have been reworded for clarity:

- Hepatitis B (specify acute, chronic, or perinatal)
- Hepatitis C (specify acute, chronic, or perinatal)
- Human Immunodeficiency Virus (HIV) infection, progression to stage 3 (AIDS)
- Influenza, due to novel strains (human)

- Respiratory syncytial virus-associated deaths in laboratory-confirmed cases <5years of age
- Syphilis (all stages, including congenital)

Section 2505:

Section 2505 specifies that laboratories must report all laboratory testing results suggestive of diseases of public health importance to the local health department within the specified timeframe. A subsection of 2505 specifies isolates or specimens that must be submitted to the public health laboratory. The updated 2505 diseases list is posted on the Division of Communicable Disease Control website at:

<https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/Reportable-Disease-and-Conditions.aspx>

We thank you in advance for your reporting efforts that make it possible for our Disease Control staff to respond, investigate, and control the spread of communicable diseases in our community. Reminder, if you are not currently reporting via the CalREDIE Provider Portal, please visit our website for enrollment at www.sbcphd.org/dcp. Please contact our Disease Control and Prevention Program 24/7 for any immediate communicable disease matters at (805) 681-5280.

REPORTABLE NON-COMMUNICABLE DISEASES AND CONDITIONS

Conditions Impairing Driving Capacity (pursuant to H&S 103900)

Lapses of consciousness or control. Alzheimer's disease or other conditions which may impair the ability to operate a motor vehicle safely.

It shall be the duty of every health care provider, knowing of or in attendance on a case or suspected case of any of the diseases or conditions listed above to report to the local health officer for the jurisdiction where the patient resides. Where no health care provider is in attendance, any individual having knowledge of a person who is suspected to be suffering from one of the diseases or conditions listed below may make such a report. "Health care provider" encompasses physicians, surgeons, veterinarians, podiatrists, nurse practitioners, physician assistants, registered nurses, nurse midwives, school nurses, infection control practitioners, medical examiners, coroners, dentists and chiropractors.

This updated list reflects reportable diseases and conditions as of 10/2019
